

Front Wheel BEV Battery Electric Vehicle Customization Electric Hybrid Cars

Our Product Introduction

for more products please visit us on petrolhybridcars.com

Basic Information

- Place of Origin: China
- Brand Name: Polar krypton
- Model Number: 001

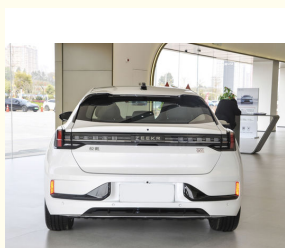

Product Specification

- Transmission: Automatic/Manual
- Exterior Design: Modern
- Range: Long
- Battery Capacity: High
- Fuel Economy: High
- Charging Time: Short
- Safety Features: Advanced
- Type: Hybrid EV Cars
- Highlight: **BEV Battery Electric Vehicle Customization, Customization Electric Hybrid Cars, Front Wheel BEV Battery Electric Vehicle**

Front-Wheel/All-Wheel Drivetrain MINIEV With High Battery Capacity

Product Description:

Hybrid EV Cars are the latest breakthrough in the automotive industry. With a max speed of 100 km/h, these cars offer a combination of both electric and gasoline engines to provide an unprecedented level of performance. The Wuling Hongguang model is especially popular for its superior interior comfort, short charging time, advanced technology features, and long range. The MINIEV model is also known for its outstanding design and efficient power system. These Hybrid EV Cars are perfect for anyone looking for a reliable, efficient, and modern car.

Features:

Product Name: Hybrid EV Cars
Range: Long
Technology Features: Advanced
Safety Features: Advanced
Charging Capacity: High
Fuel Economy: High
Market Time: 2022.03
Mincar: Mincar

Technical Parameters:

Attribute	Hybrid EV Cars
Engine	Electric/Gasoline
Battery Capacity	High
Fuel Economy	High
Charging Capacity	High
Safety Features	Advanced
Exterior Design	Modern
Range	Long
Interior Comfort	High
Transmission	Automatic/Manual
Technology Features	Advanced
Brand	Wuling Hongguang
Variant	100% Electric Car
Market Time	2022.03

Applications:

Hybrid EV Cars - Polar Krypton 001

Polar Krypton 001 hybrid electric vehicles (EVs) are designed with a combination of electric and gasoline powertrain, providing drivers with a longer range, higher fuel economy and more interior comfort than traditional gasoline-powered cars. With a maximum speed of 100 km/h and 100% electric car capability, the Polar Krypton 001 offers drivers a reliable, eco-friendly and efficient driving experience that can meet their needs in a variety of situations.

The Polar Krypton 001 is designed to be flexible, allowing drivers to choose between front-wheel and all-wheel drive for a customized driving experience. With its excellent fuel economy and long range, the Polar Krypton 001 is perfect for long-distance road trips, city commutes and daily errands. The interior is designed with superior comfort, making it an ideal choice for families and those who need

more space and comfort for their passengers.

The Polar Krypton 001 is expected to become available in the market by March 2022 and is sure to revolutionize the automotive industry with its unparalleled combination of electric and gasoline powertrain technology. Whether you are looking for a reliable, eco-friendly and efficient driving experience, or just need more space and comfort for your passengers, the Polar Krypton 001 is the perfect vehicle for you.

Customization:

Introducing the Polar krypton 001 Hybrid EV Car! This car is 100% electric and will be available on the market by 2022.03. It has a high charging capacity, a high battery capacity, and a long range. Packing and Shipping:

Packaging and Shipping of Hybrid EV Cars

Hybrid EV cars should be packaged with the utmost care to ensure its safe arrival to the customer. Each car should be individually wrapped in thick bubble wrap and secured in a sturdy box. The box should be appropriately sized for the car and have plenty of cushioning material such as packing peanuts, foam, or air pillows to prevent any shocks or vibrations during shipment. The box should be properly sealed with strong adhesive tape.

The car should then be shipped using a reputable delivery service such as UPS, FedEx, or DHL. The delivery service should provide tracking information so that the customer can follow the progress of their shipment. The customer should be provided with all necessary shipping information such as the tracking number, estimated delivery date, and any additional instructions.
