

Comfort Electric Sedan BEV Battery Model 3 with Permanent Magnet Synchronous Motor

Our Product Introduction

for more products please visit us on petrolhybridcars.com

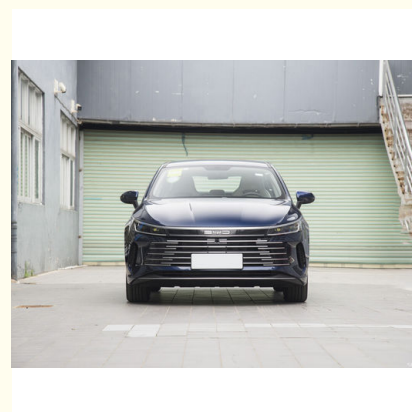

Basic Information

- Place of Origin: China
- Brand Name: BYD
- Model Number: Destroyer 05
- Minimum Order Quantity: 1
- Payment Terms: T/T

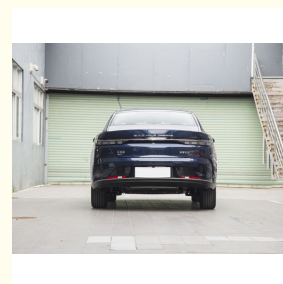

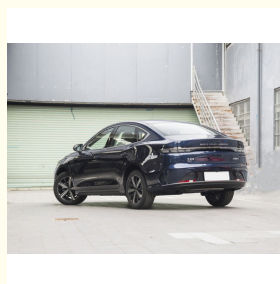

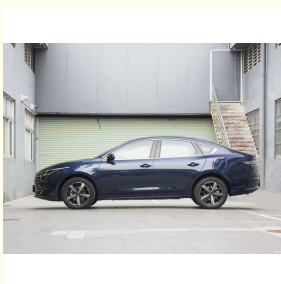

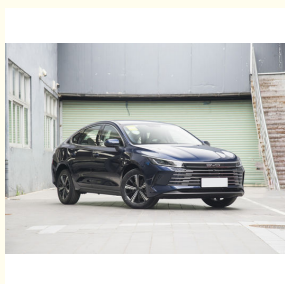

Product Specification

- Interior Comfort: High
- Powertrain: Electric
- Fuel Economy: High
- Body Type: Sedan
- Motor Type: Permanent Magnet Synchronous Motor
- Suspension Type: Independent Suspension
- Model: Model 3
- Braking System: ABS + EBD
- Highlight: **PMS Motor Electric Sedan, BEV Battery Electric Sedan**

Product Description

Product Description:

The BEV Battery Electric Vehicle is powered by a state-of-the-art electric powertrain that provides a smooth, quiet ride with zero emissions. This means that not only will you be saving money on gas, but you'll also be doing your part to reduce your carbon footprint and help protect the environment.

One of the standout features of the BEV Battery Electric Vehicle is its impressive safety technology. Thanks to its advanced autopilot system, this car can handle most driving tasks on its own, making it one of the safest cars on the road. It also comes with lane departure warning and forward collision warning, which can help you avoid accidents and stay safe on the road.

In addition to its impressive safety features, the BEV Battery Electric Vehicle is also incredibly fuel-efficient. With its powerful lithium-ion battery, this car can travel long distances on a single charge, making it perfect for road trips and daily commutes alike. And because it's an electric vehicle, you won't have to worry about the rising cost of gasoline.

The BEV Battery Electric Vehicle comes in the popular Model 3 design, which is sleek, stylish, and perfect for those who want to make a statement on the road. With rear-wheel drive and a high fuel economy, this car is perfect for those who value performance and sustainability. And because it's an electric car, it's also incredibly quiet, making for a peaceful and relaxing ride.

If you're looking for an electric car that combines cutting-edge technology with impressive safety features and high fuel economy, look no further than the BEV Battery Electric Vehicle. With its advanced lithium-ion battery and powerful electric powertrain, this car is perfect for those who want to make a difference and reduce their impact on the environment.

Features:

Product Name: BEV Battery Electric Vehicle

Top Speed: 162 Mph

Motor Type: Permanent Magnet Synchronous Motor

Interior Features: GPS, Bluetooth, Touchscreen

Safety Features: Autopilot, Lane Departure Warning, Forward Collision Warning

Model: Model 3

Electric Car Lithium Ion Battery

BESS Battery Energy Storage System

BESS Battery Energy Storage System

Technical Parameters:

Product Name	BEV Battery Electric Vehicle
Interior Comfort	High
Body Type	Sedan
Steering System	Electric Power Steering
Warranty	3 Years
Braking System	ABS + EBD
Suspension Type	Independent Suspension
Interior Features	GPS, Bluetooth, Touchscreen
Fuel Economy	High
Safety Features	Autopilot, Lane Departure Warning, Forward Collision Warning
Top Speed	162 Mph
Electric Car Lithium Ion Battery	BESS Battery Energy Storage System

Applications:

The interior comfort of the BYD Destroyer 05 is high, providing a smooth and comfortable ride. The braking system is equipped with ABS and EBD to ensure a safe and efficient braking experience. The safety features include autopilot, lane departure warning, and forward collision warning, all of which contribute to a safer driving experience.

The drivetrain of the BYD Destroyer 05 is rear wheel drive, providing a powerful and efficient driving experience. The interior features include a GPS, Bluetooth, and touchscreen, making it easy to navigate and stay connected while on the road.

The BYD Destroyer 05 is suitable for various product application occasions and scenarios. It is ideal for individuals or companies looking to reduce their carbon footprint and contribute to a sustainable future. It is also suitable for those who want a high level of interior comfort and safety features in their vehicle.

The Electric Vehicle Lithium Ion Battery in the BYD Destroyer 05 is a major selling point. It provides a clean and sustainable energy source, which is essential for reducing carbon emissions and protecting the environment. This product is perfect for those who want to make a positive impact on the planet and enjoy a high-quality driving experience.

Packing and Shipping:

Product Packaging:

The BEV Battery Electric Vehicle product will be packaged in a sturdy cardboard box to ensure safe shipping. Inside the box, the product will be securely packed with padding to prevent any damage during transportation. The box will also include an instruction manual and any necessary accessories.

Shipping:

The BEV Battery Electric Vehicle product will be shipped via a reliable courier service to ensure timely and safe delivery. Shipping fees will vary depending on the destination and delivery speed selected by the customer. The customer will receive a tracking number to monitor the progress of their shipment.
