

Global Advanced Rear Wheel Drive Hybrid EV Battery with 100KWh Capacity

Our Product Introduction

for more products please visit us on petrolhybridcars.com

Basic Information

- Place of Origin: China
- Brand Name: Mi
- Model Number: SU7
- Minimum Order Quantity: 1
- Payment Terms: T/T

Product Specification

- Motor Power: 200kW
- Type: Hybrid EV Cars
- Technology Features: Advanced
- Availability: Global
- Suspension Type: Independent Suspension
- Battery Capacity: Up To 100 KWh
- Drive Mode: Rear Wheel Drive
- Climate Control: Automatic Temperature Control
- Highlight: **100KWh Hybrid EV Battery, Rear Wheel Drive Hybrid EV Battery**

Product Description

Product Description:

One of the key features of the BEV is its advanced lithium-ion battery technology. This powerful battery system provides the vehicle with the energy it needs to drive for extended periods without needing to recharge. With its long range and efficient energy consumption, the BEV is an ideal choice for anyone looking to reduce their carbon footprint and save money on fuel costs.

In addition to its superior battery technology, the BEV also boasts a range of impressive exterior features. LED headlights provide exceptional visibility, while the panoramic sunroof offers a stunning view of the sky above. These features not only enhance the car's appearance, but also help to make driving safer and more comfortable.

The BEV is available on a global scale, making it accessible to drivers all over the world. Whether you're in the city or out in the countryside, this vehicle is designed to provide a smooth and enjoyable driving experience.

The drivetrain of the BEV is available in both front-wheel and all-wheel drive configurations, allowing drivers to choose the option that best suits their needs. Whether you're navigating slippery roads or cruising down the highway, this car is equipped to handle any driving conditions you may encounter.

The BEV is classified as an Electric Vehicle, meaning that it is powered entirely by electricity. This makes it an eco-friendly choice for drivers who are committed to reducing their environmental impact. Additionally, the vehicle's lithium-ion battery technology is designed to be compatible with BESS Battery Energy Storage Systems, allowing drivers to store excess energy generated by the car and use it to power their homes or other devices.

In summary, the BEV Battery Electric Vehicle is a state-of-the-art electric car that offers a range of advanced features and capabilities. With its powerful lithium-ion battery system, impressive exterior features, and global availability, it is the perfect choice for anyone looking for a safe, efficient, and eco-friendly driving experience.

Features:

Product Name: BEV Battery Electric Vehicle

Vehicle Type: Electric Vehicle

Technology Features: Advanced

Exterior Features: LED Headlights, Panoramic Sunroof

Number Of Seats: 5

Availability: Global

Technical Parameters:

Motor Power	200kW
Transmission Type	Automatic
Vehicle Type	Electric Vehicle
Drivetrain	Front-Wheel/All-Wheel
Exterior Features	LED Headlights, Panoramic Sunroof
Climate Control	Automatic Temperature Control
Suspension Type	Independent Suspension
Availability	Global
Battery Capacity	Up To 100 KWh
Type	Hybrid EV Cars

This BEV (Battery Electric Vehicle) features a powerful 200kW electric motor, an automatic transmission, and front-wheel/all-wheel drivetrain. Its exterior features include LED headlights and a panoramic sunroof. The climate control is automatic, and the suspension is independent. The lithium-ion battery has a capacity of up to 100 kWh and is suitable for use in an electric car. This Electric Vehicle is a Hybrid EV Car and is available globally.

Applications:

Model Number: SU7

Place of Origin: China

Minimum Order Quantity: 1

Payment Terms: T/T

Vehicle Type: BEV Battery Electric Vehicle

Suspension Type: Independent Suspension

Infotainment System: Android/iOS Compatible

Battery Capacity: Up To 100 KWh

Interior Features: GPS, Bluetooth, Touchscreen

The Mi SU7 is a BEV Battery Electric Vehicle with a range of up to 400 miles per charge, perfect for daily commutes and long-distance road trips. The BESS Battery Energy Storage System ensures reliable performance and durability, while the Electric Vehicle Lithium Ion Battery delivers smooth acceleration and power.

The independent suspension provides a comfortable ride, while the infotainment system allows for seamless integration with Android and

iOS devices. The GPS, Bluetooth, and touchscreen features provide easy navigation and entertainment options for passengers. The Mi SU7 is ideal for a variety of occasions and scenarios, including daily commutes, family road trips, and weekend getaways. Whether you are commuting to work, running errands, or exploring new destinations, the Mi SU7 offers a reliable and efficient driving experience.

The Mi SU7 is manufactured in China and has a minimum order quantity of 1. Payment terms are T/T, making it easy and convenient to purchase. The BEV Battery Electric Vehicle is the perfect choice for environmentally-conscious consumers who want to reduce their carbon footprint without sacrificing performance or style.

Customization:

Customize your BEV Battery Electric Vehicle with Mi SU7
Brand Name: Mi
Model Number: SU7
Place of Origin: China
Minimum Order Quantity: 1
Payment Terms: T/T
Drivetrain: Front-Wheel/All-Wheel
Technology Features: Advanced
Infotainment System: Android/iOS Compatible
Transmission Type: Automatic
Suspension Type: Independent Suspension
BESS Battery Energy Storage System, BEV Battery Electric Vehicle, Electric Vehicle Lithium Ion Battery

Support and Services:

Our Product Technical Support and Services for the BEV Battery Electric Vehicle include:

- Comprehensive technical documentation, including user manuals and troubleshooting guides
- 24/7 technical support hotline for urgent issues
- On-site technical assistance for complex problems
- Regular software updates to ensure optimal performance
- Access to online forums and communities for peer-to-peer support
- Training and certification programs for technicians and mechanics
- Warranty and repair services for defective components
- Customized service agreements for individual customer needs

FAQ:

Here are some frequently asked questions about the Mi SU7 Battery Electric Vehicle:

Q: What is the brand name of this electric vehicle?
A: The brand name of this electric vehicle is Mi.

Q: What is the model number of this electric vehicle?
A: The model number of this electric vehicle is SU7.

Q: Where is this electric vehicle made?
A: This electric vehicle is made in China.

Q: What is the minimum order quantity for this electric vehicle?
A: The minimum order quantity for this electric vehicle is 1.

Q: What are the payment terms for this electric vehicle?
A: The payment terms for this electric vehicle are T/T (telegraphic transfer).
