Product Description

Product Description:

One of the most notable features of this car is its minimum turning radius of 5.9 meters. This makes it easy to maneuver in tight spaces, which is especially useful when driving in the city. The car's length of 4815 mm and wheelbase of 2720 mm provide ample space for passengers and cargo, making it a practical choice for families and individuals alike.

But what really sets the glory edition apart is its EV capabilities. With a pure electric driving range of 60 km (top speed version up to 80 km), you can drive around town with zero emissions. This not only benefits the environment but also saves you money on fuel costs. And if you do need to use the petrol engine, the car's fuel tank capacity of 53 liters ensures that you can travel long distances without worrying about refueling.

In addition to its impressive performance, the glory edition of the Petrol Hybrid Cars also boasts a sleek and stylish design. The car's exterior features chrome accents and a sporty grille, while the interior is spacious and modern. The seats are upholstered in high-quality materials, and the dashboard is equipped with advanced technology such as a touchscreen display and a navigation system.

Overall, the Petrol Hybrid Cars glory edition is a top-of-the-line vehicle that offers the best of both worlds. With its impressive EV capabilities, practical features, and stylish design, it's the perfect choice for anyone who wants a car that is both eco-friendly and high-performing.

Applications:

The Have H6 is an eco-friendly car that is perfect for people who want to reduce their carbon footprint. The car has an EV mode that allows it to run on electricity alone. This is great for short trips around town where you don't need to travel long distances. The car's petrol engine will kick in when you need to travel further. The H6 is a great option for people who want to reduce their fuel consumption and save money on petrol.

The Have H6 is perfect for families who need a car to transport their children around. The car has plenty of space for passengers and luggage, making it ideal for long journeys. The H6 is also great for people who need a car for work. The car's hybrid power system makes it fuel-efficient, which means you'll save money on petrol in the long run.

The Have H6 is a popular choice for people who want a reliable and efficient car. The car is manufactured by a reputable company called BYD, which is known for producing high-quality electric vehicles. The H6 is a great option for people who want to reduce their carbon footprint and do their part for the environment. The H6 is available for a minimum order quantity of 1 and payment terms are T/T. The delivery time for the car is 5-8 word days.
