

Byd Destroyer 05 2024 Honor Edition DM-I A+ Class Sedan Ocean Aesthetic Design

Our Product Introduction

for more products please visit us on petrolhybridcars.com

Basic Information

- Place of Origin: China
- Brand Name: BYD
- Model Number: Destroyer 05
- Minimum Order Quantity: discussible
- Payment Terms: T/T

Product Specification

- Length × Width × Height: 4780×1837×1495
- Wheel Base: 2718
- Wheel Base Front/rear: 1580/1590
- Minimum Turning Radius: 5.5
- Fuel Tank Capacity: 48
- Displacement: 1.5
- Maximum Engine Power: 81/6000
- Motor Type: Permanent Magnet Synchronous Motor
- Type Of Battery: DM-i Super Hybrid Dedicated Power Blade Battery
- Speed Control System: EHS Electric Mixing System
- Highlight: **Byd Destroyer 05 Sedan,
Ocean Aesthetic Byd Destroyer 05 Sedan**

Product Description

Product brief introduction

The Destroyer 05 is Ocean Network's first sedan and the first model of the warship series. Destroyer 05 is an A+ class sedan, which adopts the "ocean aesthetic" design concept, which perfectly interprets the young, enterprising and open attitude of the new generation of BYD models. In appearance, the front face grille design of destroyer 05 is inspired by the ripples of ocean waves, and further stretches the visual width of the vehicle through the droplet lattice and staggered decorative bars, achieving innovation in inheritance. At the same time, the entire series of destroyer 05 uses LED Starlight battleship headlights, and the highly recognizable through-line daylights combined with the decorative strip above further strengthen its sense of technology.

The body size of destroyer 05 is 4780mm×1837mm×1495mm, and the wheelbase is 2718mm, which will bring the user a large space. Destroyer 05 has a low and aggressive sports aesthetic, simple and open overall style and BYD's new LOGO complement each other.

Dynamic characteristics

Destroyer 05 adopts DM-i super hybrid technology, equipped with Snapcloud-plug-in special 1.5L efficient engine, engine thermal efficiency reaches the industry-leading 43.04%; EHS electric mixing system integrates dual motor, dual electronic control and special hybrid transmission, with DM-i special power blade battery can not only achieve pure electric green city travel, but also make the engine full speed section in the best working efficiency range.

With the new Marine aesthetic design, leap-over large space, DM-i super hybrid technology, and blade battery and other core advantages, Destroyer 05 will bring users a disruptive driving experience.

Interior features

On December 26, 2021, according to the official Weibo of BYD Auto, the new interior of destroyer 05 model was officially released, "The beauty of the ocean, a 'ship' is enamelled." The BYD Destroyer 05 has an 8.8-inch full LCD dashboard and a 15.6-inch adaptive rotary hover Pad for smart connectivity. In addition, the model has a knob shift button, small and delicate.

In terms of color, the interior color of Destroyer 05 is also composed of four innovative color combinations: Basalt black, sky gray, Quantum bright gray and Jacaranda pink.

Configuration

Destroyer 05 has more than 17 high value standard features, including 12.8-inch adaptive rotary hover Pad, 15.6-inch premium hover Pad, LED daytime running lights, keyless entry, TPMS direct tire pressure monitoring system, one-click start, automatic air conditioning, rear outlet, cruise control, external rearview mirror electric adjustment + heating, and more. The high-equipped model also provides 5G network speed connection for young users, which can be described as an easy configuration to enjoy.

Its equipped DiLink intelligent network connection system supports intelligent voice interaction function, karaoke mode, vehicle OTA remote upgrade + intelligent cloud service. DiPilot intelligent driving assistance system provides users with advanced intelligent driving assistance functions, including active braking, lane keeping, adaptive cruise, pedestrian recognition/protection, so that travel convenience and safety are significantly improved.

The 120KM version of Destroyer 05 also adds bright functions such as VTOL mobile power station and 17kW DC fast charging port to unlock more vehicle scenarios, and its strength is ahead of its level.
