Product Description:

Used 2021 Audi E-tron

The 2021 Audi e-tron is an eye-catching luxury electric SUV. It not only demonstrates Audi's outstanding technology in the field of electric vehicles, but also retains the brand's consistent luxury quality and driving pleasure.

In terms of appearance, the overall design of the Audi e-tron is highly similar to that of imported models. Its iconic hexagonal mesh design is matched with the full LED light group of Arrow Rain, showing sharpness and technological sense. The 21-inch aluminum alloy wheels and the sports package with the s-line logo add a sporty atmosphere.

In terms of configuration, this car is quite rich. It comes standard with carplay, active braking/active safety system, steep slope descent and other practical configurations. The assisted driving function makes driving easier and more convenient. In addition, it is also equipped with an openable panoramic sunroof with a high lighting rate, making the interior space more transparent and improving the comfort of riding. Its seats are made of genuine leather, with good texture and easy to care for. The main driver's seat also has leg rest adjustment and memory functions.

In terms of power, the 2021 Audi e-tron also performed well. Taking the domestic Audi e-tron as an example, the front and rear axles are equipped with an AC asynchronous motor respectively. The maximum power of the front motor is 114kW, the peak torque is 226N·m, and the maximum power of the rear motor is 172kW, the peak torque is 314N·m, and the power is sufficient. The ternary lithium battery pack used has a battery energy density of 142Wh/kg, and the NEDC operating range can reach 465km.

In terms of safety, the Audi e-tron strictly adheres to the safety bottom line. The whole vehicle is developed according to high standards, adopts a steel-aluminum hybrid body design structure, and the strength is comprehensively improved. The whole vehicle is equipped with 8 airbags to provide exclusive customized level of safety protection for the occupants. At the same time, it is equipped with a number of intelligent driving assistance systems, such as preventive occupant protection system, front and rear warning protection system, avoidance steering assistance system, etc., which greatly improve driving safety with intelligent technology. In the field of battery safety, it is "armed to the teeth". The high-voltage battery compartment is protected by 3 layers of "aluminum alloy armor". The battery safety test is as high as 137 items, far exceeding the national standard requirements. It has more than 20 active and passive discharge technologies, creating a five-star battery safety protection level.

The 2021 Audi e-tron combines luxury, technology and performance, providing an ideal choice for consumers who pursue high-quality electric travel. Whether on urban roads or long-distance travel, it can bring a comfortable, safe and fun driving experience.

Features:

Product Name: Used 2021 Audi E-tron

Safety:

Comprehensive safety airbag system for passenger protection

Advanced safety technologies including ABS (Anti-lock Braking System), Electronic Stability Control, etc., for stable driving and braking performance

Reverse camera and parking assistance system for convenient parking operations

Technical Parameters:

Maximum Speed :	200
Length * Width * Height :	4902x1935x1618
Engine	Two motors
Energy Type:	Full electric
Body Structure:	5 Door 5 Seat SUV
NEDC Electric Range :	
Maximum Torque:	664
Power train:	Full electric

Exterior or Design:	The interior design is exquisite and practical, using high-quality materials and comfortable to the touch. The seats are ergonomic and provide excellent support and ride comfort. The interior is richly equipped with features such as a large center screen and an intelligent connectivity system to make your drive more convenient and enjoyable.
Product Name:	Audi E-tron

Applications:

The stylish and dynamic appearance and smooth lines outline a charming figure, making you the focus of the street. The interior space is spacious and comfortable, flexible and changeable to meet your diverse needs. Efficient power, economical and fuel-efficient, saving costs for your travel. Rich and practical configurations, enjoy a convenient driving experience. Excellent safety performance, escorting every trip for you.
